NB: *École normale supérieure de Rennes* is one of the most selective French higher education institutions in science and humanities. Students entering ENS are selected from the upper tier of *classes préparatoires* and universities and ranked in the top 1-5% among French students.

ENS follows the traditional French grading system based on a numbered scale from 0 to 20, 10 being the minimum passing grade. French grades correspond to the following:

- 18-20: Outstanding
- 16-17.9: Very Good
- 14-15.9: Good
- 12-13.9: Quite Good
- 10-11.9: Fair
- 0-9.9: Fail

Typical class average lies between 12 and 14/20 and grades above 16 are seldom awarded.

I, Mr Martin QUINSON, research fellow in Computer Science, Head of Studies of the Department of Computer Sciences, hereby certify that the translation of the transcripts obtained by Mr Jean DUPONT is true to the original.
